

# WAR ESTIMATE FIVE BILLIONS.

Ten Million Dollars a Day  
Great Britain's Bill.

Revenue Coming in Rapidly,  
Says Lloyd George.

Immense Sum has been  
Loaned to Allied Nations.

(BY ATLANTIC CABLE AND A. P.)

LONDON, May 4.—In one of the shortest budget speeches on record he being on his feet a little over an hour, David Lloyd George, the Chancellor of the Exchequer, gave the British public today further insight into what the war is costing the nation.

The expenditure at present, Mr. Lloyd George said, was £1,100,000,000 (£11,000,000,000) a day, and he added that if the war continued for a year Great Britain's bill would be upward of £1,000,000,000 (about \$15,000,000,000). The debt of the country, according to Mr. Lloyd George, already had been almost doubled, and stood well over the \$5,000,000,000 mark.

The Chancellor declined to predict the length of the war. He introduced no measure calling for new taxes, although he hinted that such a step likely would have to be taken. There was little discussion of the budget itself, and the usual income tax resolutions were passed before the House adjourned.

Mr. Lloyd George said he was able to report that the revenue of the country had exceeded the estimates and that the surplus and income tax revenues were sending in their money with unusual celerity.

During the evening Austin Chamberlain mentioned the proposals for increasing the taxes on beer, wine and spirits, which the Unionists and Nationalists and several Liberal members declared their intention to oppose.

Mr. Lloyd George announced that he intended to confer with brewers and distillers and also that he was open to consider their proposals. He added, however, that he would ask that the government be given power to increase the duties on beer in the areas where munitions of war are made.

Mr. Lloyd George said that if the war should last six months instead of a year Great Britain's estimated expenditures would be £790,445,000.

THE TOTAL REVENUE.

Mr. Lloyd George estimated that the total revenue for the year 1915-1916 would be £775,121,000. This is an increase of £14,844,000 over the total of last year. On the basis of a six month war, the Chancellor continued, expenditures for war, apart from advances to the allies of Great Britain, would rise to £1,100,000,000 daily and the net deficit would be £14,444,000. On the basis of a twelve month war the net deficit would be £28,332,000.

"That is the sum the country will have to raise in addition to the government's revenue during the course of the present year," he said.

The Chancellor gave an indication of the colossal expenditure he had to provide for in his opening sentence. "Up to the end of the financial year the net cost of the war has been over \$287,000,000. He believed a review of the financial situation would help the public to understand the immensity of the task undertaken.

Much depended, the Chancellor said, upon operations of the next two or three months. Experts gave various predictions as to the duration of the war, but the best of them could not tell how long it would last.

"The cost has been progressive," he said. "The first four months cost \$122,000,000; the second four months, \$177,444,000."

One of the most important announcements made by the Chancellor was that no fresh taxes were now contemplated. In this connection he called attention to what he characterized the wonderful bonanza of the income tax and the super tax, the actual yield being \$69,393,000 or an increase of nearly \$3,000,000 over the estimate.

He said that the income tax would be reduced in its present form, with a slight modification in the rate of the House that if the war were prolonged it would be his duty to consider in what other ways the general community could provide funds to enable the country to carry on the war.

A result of the year's operations, the Chancellor said, the national debt was now \$1,155,837,000. Mr. Lloyd George did not consider that the time had

# JOHN BUNNY LEFT LITTLE.

State of Famous Moving Picture Actor Eight Thousand Dollars.

Revenue Coming in Rapidly,  
Says Lloyd George.

Immense Sum has been  
Loaned to Allied Nations.

(BY ATLANTIC CABLE AND A. P.)

LONDON, May 4.—The estate of John Bunny, the famous picture actor, who died recently in Brooklyn, amounts to \$8000, according to his will. His widow is named as sole beneficiary and executrix.

arrived to frame the final policy for the whole year as the character of the budget must depend upon the view of the government whether the war probably would last six months or throughout the financial year.

ESTIMATED INCOME.

Dealing with the revenue for the coming year the Chancellor estimated the total from all sources would reach £775,121,000. He said the fixed death duties for the year would be something like £50,000,000. The expenditure for the army would be £400,000,000, according to whether the war lasted six months or a year. On this same basis the expenditure for the navy would be £100,000,000 or £140,000,000. The place of loans in such operations and the commercial complications resulting from the war, he thought the time had come when measures should be taken of such a nature that recruiting would not interfere with the work of providing food supplies and munitions of war and would interfere as little as possible with the output of commodities which Great Britain exports and which enable her to purchase munitions for herself and her allies.

Comparing the financial problems of Great Britain and Germany, Mr. Lloyd George remarked that while British imports had increased enormously and exports had decreased considerably, both the exports and imports of Germany had been cut off by the British navy.

From the point of view of a War Minister, Mr. Lloyd George added, this made Great Britain's letter of credit from the point of view of a finance Minister, her position was more difficult. In the ordinary year, the Chancellor continued, British imports ranged £130,000,000 (£130,000,000) above exports, but this year they would be £141,000,000 (£141,000,000) exclusive of government purchases.

AS TO RECRUITING.

Referring to the question of discrimination in recruiting, the Chancellor said he thought the allies ought to determine the part Great Britain should play in the combination and the best service she could render. She could, he declared, keep command of the sea and that was a valuable service she had rendered the allies, which was essential to their ultimate success, especially if the war were prolonged. She could maintain a great army on a continental basis, and continued, and a third service was one she had rendered in the Napoleonic days—bearing the main burden of financing the allies.

Great Britain, said Mr. Lloyd George, could do the first and third of these things but the second she could do only within certain limits. She had raised an enormous army but the time had come for discriminating in recruiting within suggested limits. However, there was a great boom for recruiting.

The Chancellor then caused a smile of relief by announcing that there would be no fresh taxation. He said he would confine himself to asking the House to renew the income tax on the scale announced in November, but with some modifications. If, however, the war was prolonged, the Chancellor added, it would be his duty of the House to consider what other contributions the community could make and in what other form, to enable Great Britain to carry on the war.

"It is vital for the successful conduct of the war and in order to help finance our allies, our national savings should increase," the Chancellor said.

MANY AUSTRIANS  
HAVE SURRENDERED.

(BY ATLANTIC CABLE AND A. P.)

GENEVA (Switzerland) May 4.—(via Paris).—The Tribune de Geneve publishes statistics that a total of 29,000 officers and men of the Austro-Hungarian army have surrendered to the Russians and to the Serbians, at the beginning of hostilities, without firing a single shot.

# MORE SALARY FOR THE PORTER.

Chairman Lincoln of Pullman Company Favors Increase.

He also Says Tipping will  
Always be with Us.

Employees of Pennsylvania  
Complain About Wages.

(BY A. P. NIGHT WIRE.)

WASHINGTON, May 4.—Robert T. Lincoln, chairman of the board of directors of the Pullman Company, frankly told the United States Congress today that he believed the system of paying sleeping car porters should be changed and that wages of Pullman car conductors should be increased. Both of these subjects, he said, would be taken up by the company's directors in the near future.

Today he believed the system of paying sleeping car porters should be changed and that wages of Pullman car conductors should be increased. Both of these subjects, he said, would be taken up by the company's directors in the near future.

While declaring his belief that tipping of Pullman porters by the public would continue even if the wages of the porters were increased, Mr. Lincoln admitted that the wage system for porters was an antiquated one and had given him considerable annoyance.

LABOR QUESTIONS.

The commission today also began inquiry into the conditions of railroad telegraphers and shopmen employed by the Pennsylvania Railroad Company. H. B. Perham, president of the Order of Railway Telegraphers, submitted complaints against the railroad company on behalf of the workers. He charged that the Pennsylvania company declined to recognize their union, assumed an attitude of arrogance and hardness that made it impossible for them to break up existing unions and prevent the organization of others.

NOT OPPOSED TO LABOR.

The Pullman company, he said, was not opposed to organized labor. He knew of no instances of petition from Pullman workers to the government. He said the company was not engaged in any strike and was not engaged in any strike and was not engaged in any strike.

Perham said the only organizations labor recognized by the Pennsylvania company were the four big brotherhoods of trainmen, engineers, firemen and conductors and that the road had "permanently made war on all other labor organizations, attempting to break up existing unions and prevent the organization of others."

ALLEGED DISCRIMINATION.

The Pennsylvania, he said, had discriminated against the railroad telegraphers who belong to the union by discharging them and denying them promotion.

In many instances Perham said, former and minor officials had been discharged because of their "labor activity," but that officially some technical charges would be assigned for their dismissal.

The road's police system, he said, cost about \$400,000 a year, but he said "beside the regular police there was a large number of spies in its employ."

He gave instances of alleged espionage and arrest of union men, submitting detailed reports from union leaders.

An affidavit submitted from A. E. Ireland of Pittsburgh, a member of the Machinists' Union, charged that the Pennsylvania Railroad strike in May, 1911, was precipitated when officials of the company sought to compel 1000 employees to withdraw from union.

Instances of physical assaults on union men by Pennsylvania police were read into the record by Perham and affidavits charging false arrest were submitted.

Perham maintained that the Pennsylvania company had increased the wages of telegraphers and shopmen since the Commission on Industrial Relations was organized, and that the road "fought and maintains sham unions" to fight against bona-fide organizations of employees.

SHOULD INCREASE PAY.

Mr. Perham's testimony was interrupted while Robert T. Lincoln, chairman of the board of the Pullman company, testified on the condition of sleeping car porters and the company's financial condition.

# BIG CLIMB FOR COOK.

The Doctor Says He will Go to the Top of Mt. Everest.

King Decides not to Attend  
Garibaldi Ceremonies.

Hand of Von Buelow Seen in  
His Majesty's Action.

(BY A. P. NIGHT WIRE.)

CHICAGO, May 4.—Dr. Frederick A. Cook announced today that he will attempt to climb Mt. Everest in the Himalayas, the highest mountain in the world, this summer. He will sail from San Francisco with a party of twelve persons on May 27, he stated, and expects to reach Nepal, in Northern India, in July. The expedition, he said, will require seven months.

ruined while Robert T. Lincoln, chairman of the board of the Pullman company, testified on the condition of sleeping car porters and the company's financial condition.

LABOR QUESTIONS.

The commission today also began inquiry into the conditions of railroad telegraphers and shopmen employed by the Pennsylvania Railroad Company. H. B. Perham, president of the Order of Railway Telegraphers, submitted complaints against the railroad company on behalf of the workers. He charged that the Pennsylvania company declined to recognize their union, assumed an attitude of arrogance and hardness that made it impossible for them to break up existing unions and prevent the organization of others.

NOT OPPOSED TO LABOR.

The Pullman company, he said, was not opposed to organized labor. He knew of no instances of petition from Pullman workers to the government. He said the company was not engaged in any strike and was not engaged in any strike.

Perham said the only organizations labor recognized by the Pennsylvania company were the four big brotherhoods of trainmen, engineers, firemen and conductors and that the road had "permanently made war on all other labor organizations, attempting to break up existing unions and prevent the organization of others."

# BERLIN AWAITS ITALY'S DECISION.

King Decides not to Attend  
Garibaldi Ceremonies.

Hand of Von Buelow Seen in  
His Majesty's Action.

Cabinet Members are Warned  
not to Leave Rome.

(BY ATLANTIC CABLE AND A. P.)

BERLIN, May 4.—(via London).—The newspapers of Berlin, which have been leaving the Italian situation severely alone, today make a number of comments on the Rome report that the Ministerial Council felt it necessary that no member of the government should leave Rome. The Kaiser's Zettung says:

"The announcement at first makes an alarming impression, and as a fact the situation is critical. On the other hand, the Ministerial Council is the Garibaldi celebration will be held, with its presumably pro-intervention address of D'Annunzio and that the government's decision was due entirely to the situation in Tripoli, where 'Italy might be forced to extreme measures to protect our colony where German agents are fomenting rebellion.'"

LIQUOR REGULATION  
NOT SATISFACTORY.

LOLLO GEORGE IS HUNTING FOR  
SOMEONE WHO HAS A  
BETTER SCHEME.

(BY ATLANTIC CABLE AND A. P.)

LONDON, May 4.—The plan adopted by David Lloyd George, Chancellor of the Exchequer, for regulation of the liquor traffic is not entirely satisfactory, as the Chancellor himself admitted in the House of Commons today. He announced that he was to have a conference tomorrow with brewers and distillers in regard to his new taxes on spirits, wine and beer and that he was very anxious to come to an agreement with the trade.

The Chancellor said he was not wedded to his own proposals and if any one had better ideas to offer he would accept them. He did not, however, say that the House gave the government at once control of the liquor trade in areas in which munitions of war are produced.

During the debate which followed the budget speech, Andrew Bonar Law, leader of the opposition, and John Redmond, leader of the Irish Nationalists, declared their opposition to the new taxes on liquor. Mr. Redmond promised to facilitate the passage of that portion of the bill, giving the government control over the manufacture of liquor in areas where munitions of war are being manufactured.

Mr. Lloyd George, in replying, said he could not encourage the idea that the proposed taxation would be dropped, but declared he would consider the suggestion of discriminating between raw and mature whisky.

The Chancellor's speech was taken to indicate that at some future date the whole of the liquor traffic would be under government control.

REVENUE IMPROVING.

The resolution imposing an income tax having passed, the House adjourned.

THE GENERAL IMPRESSION in the lobby after Mr. Lloyd George had delivered his speech was that the proposed new taxes on wine, beer and spirits either will be withdrawn or greatly modified, for above all things the government desires unanimity.

CALL OF VON BUELOW.

Abandonment of the plan for the participation of King Victor Emmanuel and his government officials in the ceremonies attendant upon the unveiling of the Garibaldi monument at Quarto San Elena, was the result of the call made by Prince von Buelow, the German Ambassador, on Foreign Minister Sonnino, Sunday night.

The details of this conference are supposed to have been presented at the meeting of the Cabinet, the chief of which was not issued until yesterday morning. The ministers assembled two hours late and the council lasted four hours.

All the ministers arrived promptly except Minister of Justice Orlando, who was absent from the room, but he returned in time to take part in some of the deliberations. Immediately after the council closed, Baron Sonnino, who called on the King before the session opened, went to the Consulta, where the first secretary of the German Embassy awaited him.

After receiving a verbal communication from the Baron the secretary hastened to the villa Malet, the private residence of Prince von Buelow, where the King for a second time.

These events are interpreted in many ways in political circles, but the military have forbidden the transmission of all comment. Correspondents

# LABOR LAW HELD INVALID.

Ohio Statute Relating to Membership in Union Unconstitutional.

King Decides not to Attend  
Garibaldi Ceremonies.

Hand of Von Buelow Seen in  
His Majesty's Action.

(BY ATLANTIC CABLE AND A. P.)

COLUMBUS (O.) May 4.—The Ohio statute which prohibits an employer from discharging an employee because of the membership of the latter in a labor union was held unconstitutional in a decision handed down by the State Supreme Court today.

are permitted to say, however, that Prince von Buelow made new proposals Sunday night to Baron Sonnino. These proposals were submitted to the Cabinet Ministers, who will hold another council today. The press is unanimous in declaring the abandonment of the King's trip to Quarto as a semi-official note, sounded vague terms, says:

"Italy's attitude cannot undergo any change from the King's not going to Quarto."

It is related that when committees arranging for the dedication of the monument called on His Majesty to invite him to be present at the ceremonies he answered, "I shall go if the reason of state do not prevent me."

An official of the Foreign Office is reported to have stated that the government's decision was due entirely to the situation in Tripoli, where "Italy might be forced to extreme measures to protect our colony where German agents are fomenting rebellion."

Good food is behind her success. Your young people will get on better both with their study and their play, if they have the regular benefit of Campbell's Tomato Soup.

It gives them the quick and easily digested nourishment they need, in a form that is tempting for them and convenient for you.

See that they have it as often as they want and as much as they want. It will do them good, either by itself alone or as the appetizing introduction to a heartier meal. And it is equally good for all the rest of the family.

Order it by the dozen and keep it handy. 21 kinds 10c a can.

Campbell's Soups. LOOK FOR THE RED AND WHITE LABEL.

Gramatan Arrow Collar. A very smart collar.

### A WINTER TONIC

Why is it that some people keep well all winter while others, less exposed to cold and damp, suffer with colds, grip, pleurisy, pneumonia and all the ills of the season?

This blood and debility are the causes of much sickness in winter. When the blood is thin, and there is oxygen starvation in the tissues of the body, pneumonia are retained that should be eliminated and there is a lowered resistance to disease.

Rheumatism disappears when the blood is built up and does not return if the blood is kept rich.

The after-effects of grip are never cured until the blood is built up.

Dr. Williams' Pink Pills enrich the blood and enable it to carry more oxygen, to nourish the starved tissues in debility, to soothe the inflamed membranes in rheumatism, to quiet the nerves in neuritis and sciatica and to expel the lingering germs after the fever and influenza of grip have passed. All winter Dr. Williams' Pink Pills should be in every house, ready for use. You can get them now at the nearest drug store.

The third edition of the popular little book "Building Up the Blood" has just been published. Write today to the Dr. Williams Medicine Co., Schenectady, N. Y., for a free copy.

### BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It.

Dr. Edwards' Olive Tablets, the substitute for colonic, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The tablets clean the coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system.

They do that which dangerous cathartics does without any of the bad after-effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or disagreeable effects of any kind.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color.

Take one or two every night for a week and note the effect. Ten cents and 25 cents per box. All druggists.

The Olive Tablet Company, Columbia, O.

### Area of Los Angeles More than Doubled

### What Candidates Say.

(Continued from First Page.)

to render the people efficient service as Mayor. I will continue to carry that issue to the people during the next few weeks. At the primary and during the primary campaign I was favored with the loyal, enthusiastic and unceasing support of a large number of men and women, who gave freely of their time and energy. I wish to return to them my sincere thanks and to say to them that their work in my behalf is thoroughly appreciated. I hope and anticipate that they will continue to give me their assistance. The primary is now over, the situation is considerably simplified, the lines of the campaign become clearer. I feel that I shall go forward to victory and I ask the support of the citizens generally at the June election.

### WHIFFEN'S MANAGER.

John W. Snowden, Mr. Whiffen's campaign manager, said: "Under the peculiar conditions which have attended this campaign, it was a guessing match. Issues, having no proper relation to the campaign itself, undoubtedly cut a figure. From now on, I am satisfied, the situation will be greatly simplified and we shall come down to the proposition of considering the Mayoralty candidacies strictly with relation to their individual qualifications to render to the city the best service. There is no doubt that Mr. Whiffen's long experience in the Council and the splendid training he has received there make him the logical man for Mayor during the next two years. The people are going to see it that way and Mr. Whiffen will be put across by a big majority in June. We have perfected a splendid organization and during the next few days it will be still further strengthened in every section of the city. We are going to carry the battle aggressively from the outset. We are prepared to meet any one on the ticket, and the non-factional ticket was badly beaten, while a number of independent candidates struggled for the scant footing left by the big vote for the Francis ticket.

### DOESN'T GIVE UP.

ALLEN THINKS HE'S ON.  
"Intentions at midnight are that the voters of Los Angeles have selected me as one of the candidates to make the final contest for the Mayoralty," said Robert M. Allen. "There is no little difference in the returns that it is hard to say whether or not I will get the plurality to put me ahead of Mr. Whiffen, but I wish at this time to grasp the opportunity of thanking my many loyal friends who have honored me with their splendid support no matter what the final outcome of the present election."

### HYSTERICAL LANDSLIDE.

"The present election has been nothing more than a hysterical landslide. The people know what they want and I can only say that I am happy and contented in asserting that my chances are very slim," said H. A. McCallum, Mayoralty candidate for the Clean Sweep League, which was swept into political oblivion by the voters. Candidate McCallum refused to concede second place to any of his rivals until midnight, when he reluctantly admitted that he was out of the running.

### STORM JAIL TO GREET CHIEF.

Unable to further restrain their enthusiasm, 100 men and women Sebastian boosted stormed the City Jail at 11 o'clock last night, jamming the corridor from the street entrance to the office of the detective bureau. The real object of the crowd was to personally congratulate the Chief, and when they found that he was not there, someone cried out: "Let's give three cheers for him, anyway."

### Drunkenness is No Longer a Curse

Because the Neal Treatment Removes the Craving for Drink in Three Days.

Make up your mind you will stop drinking, now, and spend three days at the Los Angeles Neal Institute, No. 945 South Olive street, or at home taking the Neal Treatment. It is purely vegetable and administered internally—hypodermic injections are never used. If your husbands or sons drink act for them—delay is always dangerous. Call, write or phone G. U. Neal, Manager, for full information. The Los Angeles Neal Institute is one of six splendid Neal Institutes in the principal cities of the world. Phone: Broadway 4602, A4672. All drug habits treated.

### Bloom of Youth Now Easily Attained

You no longer need to "doctor" that new, dried, blackhead, rough, blotchy, pimply or over-red skin. You can remove it, instead—easily, painlessly, inexpensively, by a new scientific process, which anyone can use without medication, the dead and near-dead surface skin, with all its imperfections, is gently, gradually sloughed—and a radiantly youthful and beautiful complexion comes forth! Do it now! Druggists get a course of pure medicinal wax: at night apply a mass of this to the purely vegetable face: don't rub it in. Next morning remove the wax with warm water. You wonder why this secret wasn't discovered long ago!

### How to Gain Flesh.

A simple but sure way to increase the weight, it is asserted by several well-known physicians, is to eat a grain of cod-liver oil several times a day. These little tablets have the distinguished merit of increasing the assimilation and promoting the absorption of the food which is made blood and solid tissue. They are obtainable in sealed packages from druggists and well stocked apothecary shops.

### Sebastian High Man.

(Continued from First Page.)

night, and found half a dozen candidates struggling to get within the sphere to go on the general ballot.

FRANCIS TRIUMPH.

The fight for the Board of Education was a signal triumph for the Francis supporters. J. H. Bonn appears to lead the ticket, with H. E. Randall, Fred E. Golding, C. H. V. Lewis, G. J. McCormick and W. A. Spaulding following with hardly a perceptible break in the individual strength. Ex-Judge Randall, according to early figures, ran well ahead of any one on the ticket, and the non-factional ticket was badly beaten, while a number of independent candidates struggled for the scant footing left by the big vote for the Francis ticket.

### IT IS SLOW.

The counting of ballots was painfully slow, and to still progressing. At the City Hall, where 100 votes were cast, the officials had not completed the count at 2 o'clock this morning. In some districts where there was a heavy vote the tally may not be completed until this afternoon.

### Councilmen Candidates and Their Friends.

Councilmen candidates and their friends thronged the City Hall until the early hours of the morning, awaiting returns. City Clerk Wilder, who had arranged a blackboard for the information of candidates and the public, had very few actual official figures to post until 2 o'clock this morning.

### The confused situation in the Councilmanic race.

The confused situation in the Councilmanic race has given hope to all those who were not outdistanced in the early returns.

### At 1 o'clock this morning the Allen forces were still contending that there was a chance of defeating Whiffen for second place on the Mayoralty ballot, but the Whiffen lead began to grow as the count progressed and chances are that he will defeat Allen by at least 1500 votes.

### The Whiffen campaign workers.

retired at midnight, feeling assured that second place on the ticket had been won.

### TATTOOING TOMMY ATKINS.

Artists Have Found Much to Do in Decorating the Loyal Soldiers and Sailors of King George.

(London Tit-Bits.) "Tommy" and "Jack" both love to have their arms or chests decorated with portraits of loved ones or patriotic emblems, and tattooists have been busily practicing their art on soldiers and sailors since the outbreak of the war. The favorite design of the British soldier is the head of a bulldog with a Union Jack twisted around his body. Others are more ambitious in their choice and bring photographs of their sweethearts to the tattooist and request him to copy them on to their skins. King George's portrait is often tattooed on the arm of a loyal soldier.

### National emblems are favorite designs among Scotch, Irish and Canadian soldiers.

The Highlander likes to have a thistle in color tattooed on his knee, while a brilliant green shamrock leaf finds favor with the soldier from the Emerald Isle. The Canadian's favorite tattooed emblem is the maple leaf, and that of the Australian a kangaroo.

### Half the sailors in the British navy are tattooed, for the custom has always been a popular one with Jack.

Designs pertaining to matters nautical find favor with the man in blue, such as crossed guns, battleships or portraits, with a life buoy as a frame. Many fighting men have been especially tattooed with emblems and mottoes relative to the present war. The sentence "Avenge Belgium," in letters picked out in red, white and blue, has been tattooed on many soldiers' chests, and the flags of the allies placed in fan shape is another design which the war has popularized.

### Acquainted.

### CITY ADDS TO ITSELF VAST, RICH TERRITORY.

Annexation of San Fernando Valley Lands and of Palms District Carries at the Polls, Insuring Rapid Development by Aqueduct Water—More than Doubles Area of Municipality.

BY THE ACTION of its citizens at the polls yesterday, Los Angeles added to its domain a vast area of rich territory, certain to develop with great rapidity when the ever-living surplus waters of the Owens River aqueduct are placed upon the fertile soil.

A great portion of the San Fernando Valley, and the Palms district, to the southwest, are to become parts of the city.

He smiled, too.  
President Whiffen of the City Council, also nominated for the Mayoralty.

### TO THROW MEXICO OPEN TO HONEST INVESTORS.

(BY A. P. NIGHT WIRE.)

VERA CRUZ, May 4.—Promises that Mexico, after peace has been secured, which he expects will be soon, will be thrown open to all honest foreign investors, and especially that American capital will be welcomed, were made by Gen. Carranza in an authorized interview today.

Gen. Carranza said he wished to overcome what he believed was a growing feeling in the United States that the Constitutionalists are opposed to foreigners. He announced that he intended to restore railroad traffic to Mexico City as soon as the military operations against Gen. Francisco Villa ended.

Recent events such as the defeat of Gen. Villa at important points, renewed his confidence that the war soon will be ended," said Gen. Carranza. "Then Mexico will start her reconstruction and will need legitimate foreign help. The resumption of industry will attract American capital, which will be welcomed and protected."

### Graphic Portrayal of the Fiesta Celebration Complete in Friday's "Times."

The issue of The Times of Friday, May 7th, will contain graphic, detailed and complete descriptions of all the Fiesta events, from the opening of the fair to the closing of the fair. The issue is a complete and graphic portrayal of the Fiesta celebration.

His Big Gun.

Mayorality.

phone he had just left, the ex-Mayor John H. Henry, who had been elected Mayor of Los Angeles in 1911, was seen leaving the building. He was accompanied by a large crowd of people, many of whom were shouting and waving. The scene was described as a "great triumph" for Henry, who had been a controversial figure during his previous term.

LETTERS

TO THE EDITOR: I have just received your issue of May 4th, and I am glad to see that you have given so much space to the story of Mayor Henry's return. It is a very interesting and well-written account, and I am sure that it will be of great interest to your readers. I am sure that you have done a very good job of reporting on this event, and I am sure that your readers will be very pleased with the result.

## THE CITY AND ENVIRONS.

### EVENTS BRIEFLY TOLD.

**Federated Improvement.**  
The Federated Improvement Association will meet Friday evening in Burbank Hall. Business of importance is to be transacted.

**South Gate Chapter.** Order of the Eastern Star, will give a ball and card party Friday evening at the Goodberg-Bowley Hall, Flower and Sixteenth streets.

**Microscope Demonstration.**  
Demonstration with a high-power microscope will be given at a meeting of the Loxvina Natural History Club Friday evening at the home of Reginald Olds, No. 206 West Twenty-fourth street.

**Anti-capital Punishment.**  
This afternoon at 2:30 o'clock, Mrs. W. T. Katch will speak on "Anti-capital Punishment" before the Million Club, at its headquarters, No. 10 Coulter Building.

**Temple Elect.**  
Golden West Commandery No. 41, Knights Templar, elected last night the following officers: Eminent Commander, Ed. Nagel; Generalissimo, Jonathan Jeffers; Captain-General, Robert Haffner; Senior Warden, Rowell Goodrich; Junior Warden, L. Crutcher; Treasurer, F. K. Pfaffner; Recorder, Harry Knox.

**Medicos to Come Here.**  
Members of the American Hospital Association will come west by special train to attend the big meeting of the American Medical Association in San Francisco in June, according to advice received yesterday by the Santa Fe. The special will arrive here at 7 a. m. June 20, and will leave at midnight for the north.

**ANNIVERSARY DINNER.**  
City Planners to Celebrate Year's Life with Enjoyable Programme and "Kata."

The first anniversary dinner of the City Planning Association will be given tonight in a downtown cafe.

The association was formed in May, 1914, following the presentation of the city planning exhibit prepared by the American City Bureau of New York.

Dr. Andrew Stewart Lohmeyer will be the speaker of the evening, when he will outline present conditions and the possibilities in Los Angeles.

A summary of the past year's work of the association will also be given by the committee heads in charge.

Councilman Wheeler will speak on behalf of the city. It was at the request of his committee that the association made an international survey on city planning commissions and drafted an ordinance based on their findings.

Supervisor Woodley will speak for the county.

Secretary Whitman will speak on the year's development in city planning in Los Angeles.

Music will be furnished by the Los Angeles community music center, under the direction of Prof. Howell Isaac.

**PATENTS GRANTED.**  
Large Assortment of Things Devised by Residents of Los Angeles and Nearby Cities.

Patents have been granted Southern Californians as follows, according to advice received from Washington by Hamard, Berry & Miller: Los Angeles—Guy M. Dean, oil furnace (three patents); Clarence L. Dawson, inner tube; Howard E. Eklie, cleaner; Yoshel Kariva, door; Daniel L. Lawrence, indicator; George C. Martin, shock absorber; Alva S. Merriett, concrete apparatus; Frank P. Snow, valve; Clinton E. Somers, window; Charles B. van Vorst and N. E. Fulkerson, cushion.

**REBAPTISM TODAY.**  
Chief Sick, Case is Postponed Over Yesterday—He will go on Stand Again.

Owing to the illness of Chief of Police Sebastian who is suffering from nervous shock, Judge Wood yesterday postponed the Sebastian-Frett trial until this morning at 9:30 o'clock. Before court opened Judge Wood received a note from Dr. E. E. Sherard, the Chief's physician, saying that his patient had passed a sleepless night and could not appear in court.

The postponement was ordered following a brief conference between the judge and the attorneys for both sides. The Chief will resume his testimony today.

—and the Worst Is Yet to Come

## PLAN TO BRING MILLIONS HERE.

DEVELOPMENT SCHEME WILL BE TOLD AT CHAMBER OF COMMERCE SMOKER.

A plan that includes the doing of everything necessary to develop a population of 20,000,000 persons within ten years, in the territory tributary to this city, will be outlined tonight by George H. Maxwell, executive director of the National Reclamation Association, in an address at the Chamber of Commerce smoker.

The hours are from 7:30 to 10 o'clock and members of the chamber and their men friends are invited.

Mr. Maxwell plans to bring briefly epitomize what has been accomplished since the Chamber of Commerce first launched the national irrigation movement, that resulted in the enactment of the United States reclamation act of 1902.

He will then point out, step by step, just what remains to be done to accomplish the complete conservation and beneficial use of every drop of water that falls from the heavens in the western half of the United States, with particular reference to Arizona and California.

Lieut. J. J. Simons, manager of the Australian Boys' League Band, will also deliver a brief address on trade relations between the United States and Australia, and State Highway Commissioner Blaney will tell "How Our State Highways are Constructed."

**THE THIRD MYSTERY.**  
Can a Japanese Eat Six Dollars' Worth of Food at One Sitting in a Cheap Cafe?

Those two prominent mysteries, the midnight shooting at the Sebastian home and the suicide of Dr. George Jenks, have a companion mystery at the police station of a less violent but more absorbing nature.

It was exposed when J. Yashuhara was arrested yesterday for having defrauded an innkeeper, T. Kato, No. 511 1/2 East First street.

The alleged fraud involved \$420, supposed to have been consumed at one sitting in the Japanese restaurant. How any person could absorb that much edibles in a minor restaurant was a speculation worth satirizing, so the police did not mind.

For the money he could have eaten five roast chickens, six bowls of soup, four orders of oysters, twenty-eight dishes of assorted vegetables, nine servings of salad, any of three varieties, five quarts of beer and eight desserts.

Following the analysis Mr. Yashuhara was ordered into the measurement-room. His height is five feet four inches. He weighs 137 pounds. He is 38 years old, and he ate the meal at 6 o'clock, and at 3 o'clock on the same afternoon he had eaten a lunch, according to the testimony of his friends.

Today a police judge is going to ponder the affair.

**BUSINESS BREVITIES (Continued.)**

WELL, I SEE THAT THE RUSSIAN ARE TRYING TO FIND THE "WART" IN THE CYPRIOTANS

A lot of people are rushing around trying to find the path that leads to suit economy; and some make the mistake of buying cheap suits and deary regret it.

The most economical suit is the one that has most value built in it; providing it fits well. Brauer hand-tailored suits at popular prices have lots more value in them than you will find other suits at even higher prices.

**Our Exposition Specials at \$20 and \$25 are a saving to you of \$5.**

## THE WEATHER.

(Official Report.)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, May 3.—(Reported by Fred A. Carpenter, Local Forecaster.) At 5 o'clock a. m. the barometer registered 30.07; at 5 p. m., 30.05. Thermometer for the corresponding hours showed 53 deg. and 56 deg. Relative humidity, 5 a. m., 62 per cent.; 5 p. m., 66 per cent. Wind, 5 a. m., east, velocity 1 mile; 5 p. m., east, velocity 5 miles. Highest temperature, 61 deg.; lowest, 51 deg. Rainfall for season, 17.03 inches. Humidity reduced to sea level.

**WEATHER CONDITIONS.**—Moderate precipitation accompanied the early part of the day. The wind from the north to the west, with a light breeze, was the prevailing wind. The clouds were of the cumulus type, with some alto-cumulus clouds. The temperature was in the 50's and 60's.

**THE FOUR DAYS OF THE MONTH OF MAY, 1915.**  
The first four days of the month of May, 1915, show a marked season in rainfall and humidity in comparison. The average rainfall for this period of four days was 0.11 of an inch, whereas the average for the corresponding period of the year 1914 was 0.11 of an inch. The average humidity for this period of four days was 62 per cent., whereas the average for the corresponding period of the year 1914 was 62 per cent.

**LOCAL FORECAST.**  
For Los Angeles and vicinity: Cloudy and cool, with light rain or drizzle, probably continuing through the day. Wind, light breeze from the north to the west. Temperature, in the 50's and 60's.

**STATE FORECAST.**  
San Francisco and vicinity: Unsettled weather, with showers, probably continuing through the day. Wind, light breeze from the north to the west. Temperature, in the 50's and 60's.

**MONROVIA'S BIRTHDAY.**  
Plans made for Big Street Dance in Which a Thousand May Waltz as One.

**MONROVIA, May 3.**—Plans for the celebration of Monrovia's civic birthday, May 15, were made public today by the Monrovia Day Association. This year's festivities will be confined to a monster street dance, in which a whole block of Myrtle avenue, Monrovia's principal business thoroughfare, will be transformed into a great open-air dancing pavilion.

The smooth pavement will be washed swept and covered with corn meal to render it perfect for dancing. Festoons of Japanese lanterns lighted by incandescence, built in rows across from curb to curb, a hand stand and grand stand will be erected, and the whole affair will be in the most approved style.

It is estimated by the committee in charge that the block will easily accommodate 1000 dancers at one time. All who attend the function are to appear in masquerade, and in costume, although neither mask nor domino will be necessary to gain admittance.

The Monrovia Day Association members, 350 strong, are going into the affair with the determination of making it the most brilliant and successful street ball ever given in Southern California.

**OFFICIAL DEATHS.**

## NEW CANDIDATES ADVANCE FOR FINE SCHOLARSHIPS.

Standing of Votes in Great Educational Contest, to be Published Tomorrow, will Show Surprises and Changes of Position for Many Hustlers—Coupon Ballots will be Included in Scores.

A LL indications point to a series of surprises in the standing of votes of candidates when The Times tomorrow morning publishes the latest results in its great Educational Contest.

An especially noticeable feature will be the appearance of new names in the score running over 500 votes. Several of the candidates who have entered within the past few days will be able to make fine showings. From very many sources come evidences of the general interest being taken in this campaign, and the days when the score is published cannot be too far off.

Probably few candidates realize how much their action in seeking one of these valuable scholarships places them high in the estimation of the general public. No ambition is more worthy than that of seeking the best education it is possible to obtain. And The Times is particularly gratified over the class of educational institutions represented in the list of scholarships offered.

WORK IS EASY. It would be difficult to plan an opportunity more advantageous for the boys and girls of Southern California than that of the present Educational Campaign. Through their own efforts each candidate has the opportunity to win the additional rewards of gold coin for incidental school expenses. And during the entire campaign it is possible to obtain. And The Times is particularly gratified over the class of educational institutions represented in the list of scholarships offered.

And, best of all, they do not have to waste a moment in collection of money. Not a cent do they have to collect from the subscribers. All that is necessary is to secure the subscription contract, and then the collections are made through the usual monthly collection system.

The boys and girls already active in the campaign find that this is a wonderful help to them in getting new business and thus winning for themselves the votes allowed. The very latest candidates to enter the field find it so easy to get business as those who began their activities earlier. Right now there are chances for all who make a start today.

REPORT TODAY. Votes to be included in the score printed tomorrow must be in the office of the Educational Contest Headquarters by noon today. If you have new business you report, turn it in at once if you want credit in this count.

A feature of tomorrow's report will be the inclusion of the count of coupon ballot votes. It will be noted that a new date is now appearing on the coupon ballot, and that these must be voted on or before May 7.

Another interesting feature in tomorrow's report will be the increase in the list of candidates. There is much new material in this revised list, and The Times predicts that there are quite a number of these candidates who will become important figures in the campaign from this time onward.

Remember that the extra cash rewards, in addition to the scholarship money, will range from \$100 in gold coin down to \$15, and that there will be a contest of these extra rewards to go to the candidates having the four highest scores of votes. There are the thirty-two scholarships—every one of them worth working for through this campaign. Note the possibilities in the list given herewith:

THE GOLD REWARDS.

Here is the way the gold coin for school expenses is to be distributed to the fourteen contestants having the four highest scores of votes: First choice of scholarship and \$100 in gold to the candidate securing the highest number of votes. Second choice of scholarship and \$75 in gold to the candidate securing the second highest number of votes. Third choice of scholarship and \$50 in gold to the candidate securing the third highest number of votes.

Fourth choice of scholarship and \$25 in gold to the candidate securing the fourth highest number of votes.

Fifth choice of scholarship and \$15 in gold to the candidate securing the fifth highest number of votes.

Sixth choice of scholarship and \$10 in gold to the candidate securing the sixth highest number of votes.

Seventh choice of scholarship and \$7 in gold to the candidate securing the seventh highest number of votes.

Eighth choice of scholarship and \$5 in gold to the candidate securing the eighth highest number of votes.

Ninth choice of scholarship and \$3 in gold to the candidate securing the ninth highest number of votes.

granite, paving blocks, rubble, crushed rock for macadam and concrete, sand and gravel. The total value for these minerals for 1913 was \$4,169,026, of which Los Angeles county contributed \$1,009,816, and Imperial, Orange, Riverside, San Bernardino, San Diego and Santa Barbara a total of \$1,131,425. The value of the minerals produced in the state at the present time is approximately \$100,000,000 annually.

The mineral list of Southern California is an interesting one. The following are some of the more important ones commercially during the year mentioned: Barytes, bituminous rock, infusorial earth, brick, cement, clays, copper, gema, gold, gypsum, lead, lime and limestone, natural gas, oil, petroleum, salt, glass sand, soda ash, silver, "stone industry," and some minor minerals not segregated.

Mr. Bradley is in the office of the Hotel Hayward. The figures of the 1914 production are almost all in and Mr. Bradley is to be in the office of the on the outstanding items. The printed report may be distributed at

# FILM FLAMS

BY GRACE KINGSLEY.

Victory Bateman, star of "Misphah," and former leading woman with Ward and James, is appearing in a leading role in "Kilmony," the film in which the Moros-Bosworth Company is featuring Lenore Ulrich.

New Notes in Filmland.

A new film company has been added to the Southern California flock. It has been christened the National Film Company, and has as its president William Parsons, as its vice-president, Dr. Dana L. Tasker, and as its managing director, Bruce Mitchell.

The new company has taken over the Or studio, and announces it is to produce only high-class comedies, with noted stars of the motion picture world. The first Broadway star to twinkle for the National will be Ruth Powell of "Chances Soldier" fame. Rena Rogers will play opposite him in the first picture, which will be a dramatization of a well-known novel. The names of others will be made known later.

The new company, according to Mr. Mitchell, is seeking the services of the best writers to furnish stories for production.

"Chimney" Too!

Victor Moore is appearing for the Leaky Company in a film version of "Chimney Padden."

Mr. Moore's greatest stage successes have been in a similar line of characters, including the famous "Kid Burns." He has made a study of such characters on the east side in New York.

Camillo Aster is to play the part of de Ducha.

Parvelli, Inc.

Ina Claire may return to London following her present picture engagement with the Leaky Company, as she is under contract to appear in a big revue next season.

Movie Day Here.

The Famous Players have moved into their new studio taken over by them from the Fiction Players.

Vestibule Ticklers.

Mary Pickford has about finished her present picture, in which she appears as a little old-fashioned maid, and will shortly begin work on another, in which she is to play the part of a quaint little slavey.

Miss Pickford and her brother do some startling stunts in her present screen drama. Mary will take a long fly with Glenn Martin above Griffith Park some day this week; Jack Pickford made a high dive last week from the speckles yacht in San Diego Bay.

Like It.

Dorothy Dix, in the New York Journal, wrote a long and most enthusiastic review of "The Clansman." Oth-

## GUARDIANS OF GIRLS' GRAVE

Delegates to Y.W.C. Convention Arrive.

Programme to O this Afternoon.

Leaders of Wo to Attend Sessions.

The inclement weather and the Committee of the Y.W.C. Christian Association, have postponed the opening of the annual national convention of the association opening in this city. As fast as the delegates are arriving, they are housed in waiting rooms, and the programme of the convention will last until Monday, May 10.

The first session of the convention will be a business meeting, at which the delegates will elect officers for the coming year. The session will commence at 10 o'clock this afternoon. Only delegates are admitted.

The many distinguished delegates here are Dr. Katherine Johnson, secretary of the Y.W.C. Christian Association, and Dr. John R. Johnson, secretary of the Y.W.C. Christian Association, and Dr. John R. Johnson, secretary of the Y.W.C. Christian Association.

The evening session of the convention will be held at 8 o'clock this evening. The session will be held in the Y.W.C. Christian Association, and will be held in the Y.W.C. Christian Association.

The Y.W.C. Christian Association is a national organization of young women, and is one of the largest and most influential organizations in the world.

tailed the conditions as long as it is that the out-of-door nature of the work has contrasted with the indoor living quarters.

#### THE GANGES BRIDGE.

Halfway Train Now Crosses the River on a Structure that Cost Millions of Dollars.

[Boston Transcript:] At last the Ganges at Bara has been spanned and the great railroad bridge has been crossed by a line of cars. It has taken six years to build the bridge, which cost the British government £2,000,000, sterling. Its transverse length is a mile and an eighth, and it is the second largest bridge ever built by English engineers. It spans the river at a depth of 110 feet below the lowest water level and is the deepest foundation in the world. The structure is about 200 miles away, and is reached by train or steamer. Most of the work and cement was obtained from England.

At one period of its construction the labor and staff employed on the bridge numbered as many as 12,000 men, and the plant, which tells the story of the magnitude of the work, consisted of the following:

Two ten-ton fifty-three foot gantry cranes.

Two twenty-ton steam traveling cranes.

Three eighty-foot radius floating derrick cranes.

Five fixed and traveling hand cranes.

Ten fifteen-ton overhead cranes on the sinking axis.

Two paddle steamers.

Three motor launches.

Three motorboats.

Fifty pontoons and barges.

A great quantity of rolling stock, including twenty-eight locomotives, twenty-eight brakevans, and trucks.

Eighty-one miles of service tracks, pneumatic and hydraulic plants.

Twenty-one concrete mizers and five stone-breakers, plant and equipment.

One of the greatest achievements of the engineers was that of training the natives to the use of the bridge.

At high level 2,500,000 cubic feet of water pass through the spans every second.

A Curious War Incident.

[London correspondence New York Herald:] Here is a curious story of a war incident.

One of the directors of Vacher & Sons Limited, the Parliamentary printer, is at the front, and the other is at the rear.

water to be had. While this investigation is being made, the party's homestead rights will be held in abeyance; he will not be allowed to exercise that right elsewhere, nor will he be permitted to have two applications under the act pending at the same time. If a request for designation is denied, the application will be rejected. Where a petition is granted in part an order will be made with reference to the designated land. If all of the land is designated, the appropriate entry will be allowed.

The benefits of the law do not extend to a person who has filed a petition for designation elsewhere than at the Local Land Office of the district where the land is located. In every case where there is now pending an application for original or additional entry under the enlarged homestead act, not allowable because part of the land has not been designated, the applicant must be given forty days within which to furnish the required corroborated affidavit in duplicate. Where a person has filed a petition for designation of land but no application for entry thereon, he will be obliged to comply with the provisions promulgated in order to obtain the preference right desired.

PLANS ENTERTAINMENT.

Committee to Greet More Grocers, Italian Fair Commissioners and Visiting Chinese.

Plans for the entertainment of another large party of retail grocers to-day and other visitors to the near future were made yesterday by the Committee on Entertainment of the Chamber of Commerce. The grocers, 140 in number, will arrive at 7 o'clock and will be entertained today with a trolley trip to the beach and a visit to the "Mission Play" at San Gabriel.

Ernesto Nathan, former Mayor of Rome and at present Commissioner of the Italian government to the Panama-Pacific International Exposition, will arrive here tomorrow to spend two days. He will be tendered a dinner at the Jonathan Club at which prominent Italians of this city will be among the guests.

Among the others coming soon are sixteen prominent Chinese merchants, who will arrive Monday to spend two days, and Gov. James P. Fielder of New Jersey and staff, who are due the 15th inst.

NEW SALT LAKE OFFICERS.

E. E. Calvin Named First Vice-President, Succeding Representative of the Harriman Interest.

E. E. Calvin, vice-president and general manager of the Oregon Short Line, was elected first vice-president of the Salt Lake yesterday at a special meeting of the board of directors in the company's office in the Pacific Electric Building. Mr. Calvin, who was formerly vice-president in charge of operation and construction of the Southern Pacific, succeeds the late W. H. Hancock as the representative of the Harriman interest in the official family of the Salt Lake. In accordance with past practice, he will maintain his headquarters in Salt Lake City and will continue his connections with the Oregon Short Line.

#### FATHER'S SMILE TRIPLED.

Wife Presents Him with Three Girl Babies and He Has Names for all of 'Em.

Harry R. Doerr of No. 1851 East Sixty-seventh street was a smile just three times as big as an ordinary mere father yesterday. Asked the occasion for his exultation, he proudly announced that Monday evening between 6 and 10 o'clock his wife presented him with three of the prettiest and sprightliest baby girls in California.

"We've got names for them, too," Mr. Doerr said as he expanded his chest another notch. "They are Ida, Anna and Emma."

Mr. and Mrs. Doerr now have eight children, the oldest being 17 years old. Mrs. Doerr and the triplets were doing nicely last night.

COULD NOT STAND ON FEET.

Mrs. Baker So Weak—Could Not Do Her Work—Found Relief in Novel Way.

Adrian, Mich.—"I suffered terribly with female weakness and backache and got so weak that I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my father thought I was going into consumption. One day I found a piece of paper blowing around the yard and I picked it up and read it. It said 'Saved from the Grave,' and told what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, 'Why don't you try it?' So I did, and after I had taken two bottles I felt better and I said to my husband, 'I don't need any more,' and he said 'You had better take it a little longer anyway.' So I took it for three months and got well and strong."—Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adrian, Mich.

Not Well Enough to Work.

In these words is hidden the tragedy of many a woman, housekeeper or wage earner who supports herself and is often helping to support a family, on meagre wages. Whether in home, office, factory, shop, store or kitchen, woman should remember that there is one safe and true remedy for the ills to which all women are prone, and that is Lydia E. Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

## RAILWAYS DELAY A CELEBRATION.

LOOKS LIKE DELIBERATE PLAN TO FIGHT THE CELLO CANAL.

(PASCO, Wash., May 3.)—The first evidence of what looks like deliberate railroad opposition to the Cello Canal, which makes the Columbia River navigable for 100 miles from its mouth, developed today, when the boats of the Cello celebration fleet were forced to wait an hour while the leaders of the two bridges decided to cancel their crews and turn their crews. The tenders are subject to arrest if they do not open the draws within fifteen minutes after a bell calls for them.

## TESTS DISEASE BY NEW METHOD.

U. OF C. SCIENTIST ANNOUNCES PLAN TO ELIMINATE MUCH VACCINATION.

(BERKELEY, May 3.)—A new and more rapid laboratory method of distinguishing between cases of chickenpox and smallpox was announced today by Dr. John N. Form, assistant professor of epidemiology at the University of California. The value of the discovery, it is said, would be in the elimination of much vaccination in exposed districts where a doubtful or "border-line" case appeared. Dr. Form's method, as announced, consisted in the injection of pus from the patient under the epidermis of an immune rabbit. This was said to give a reaction in the form of a white spot in the skin in twenty-four to forty-eight hours, about half the time required under the usual method of injecting the pus into the cornea of the rabbit's eye, which method also required more detailed work and was less positive.

## BAKERS' BAIL REDUCED.

Alleged Smuggler Attacks Newspaper Photographer in Court as the Queen's Men Take a Snapshot.

(SAN FRANCISCO, May 3.)—W. F. Baker's alleged smuggling activities as purser of the steamer Ventura netted him \$35, according to his story when his arraignment was continued today before United States Commissioner Francis Kraft. Baker admitted Mrs. Catherine Baker gave him that reward for his suspicion and aid in grading customs duty on jewels valued at \$18,000, brought from Sydney, Australia. Baker's bond, fixed at \$2000 yesterday, was reduced to \$2500 today. He said he might be able to give such a bond.

## STUDENT DEMANDS REINSTATEMENT.

SUSPENDED SENIOR OF U. OF C. ENGAGES COUNSEL TO FIGHT HIS CASE.

(BERKELEY, May 3.)—Following a second interview with the president of the State University in which he claims he was given no grounds to expect a new trial, Vern Smith, suspended senior student, has decided to make legal application for reinstatement and to use legal means to secure another hearing. Smith has retained an attorney and will attempt to subpoena from the classrooms of the university a number of students, officials and professors to his defense. Smith's interview with the university president today, he says, resulted in an opportunity for him to again meet the Student Affairs Committee, the body of five students which he declared tried him without counsel, witness or opportunity to face his accuser. He is holding out for another court, either a jury of students or a faculty body. Both names were today signed to the petition, asking for the abolishing of the Student Affairs Committee and among the signers were a number of students from Tulare, Smith's former home.

## Larger Quarters

—the better to serve you

THE growth of the Bank of Italy since 1904, when its assets were only \$200,000, until today, when its assets are over \$18,000,000, and its depositors number more than 50,000, has been an amazing measurement of the prosperity of the Pacific Coast. Since the establishment two years ago of the Los Angeles branch of the Bank of Italy, the growth of this institution has been so steady, and so great that larger quarters are now a necessity.

**We Move Monday, May 10, to Broadway at Seventh**

**New Quarters Open for Public Inspection Saturday, May 8**

Here we will have the necessary space and facilities to serve to best advantage our rapidly increasing number of depositors.

An opportunity to inspect the entire institution will be given visitors on Saturday, May 8, from 2 p.m. to 5 p.m. No business will be transacted at the new quarters until Monday, May 10.

The old offices of the Bank of Italy, at Fifth and Hill streets, will open for business up to and including Saturday, May 8, as usual.

You are cordially invited to attend the opening of our new banking quarters, and see how well we are prepared to serve you in all your banking requirements.

day's closing.

BETTER TONE  
TO DEALINGS.

GENERAL RECOVERIES MADE BY  
THE LEADING ISSUES.

Removed Selling Starts the Market  
Down at the Opening but Later  
Steady and the Railroad More than  
Make up Previous Losses—Copper  
is Strong Throughout Session.

(BY A. F. NIGHT WEBB)

NEW YORK, May 4.—Reactionary  
tendencies such as made yesterday's  
stock market, but the undertone  
was uncertain for the greater part  
of the session, with numerous indica-  
tions of renewed selling on a reduced  
scale. Trading was comparatively  
light.

Severe declines were registered by  
some of the war specialties at the out-  
set, notably in Pressed Steel Car,  
which fell more than 6 points but soon  
made substantial recovery. Westing-  
house Electric held better than any  
others of that group, later raising 5  
points. Coppers were consistently  
strong throughout.

United States Steel hesitated in the  
early dealings but rose a point later,  
despite incessant selling. Canadian  
Pacific, one of yesterday's features,  
recovered more than half its decline and  
Union Pacific, St. Paul, Lehigh Valley,  
New Haven and Rock Island were up  
1 to 2 points.

Total sales of stocks amounted to  
\$85,000,000. The financial event of the day was  
the sale to a bankers' syndicate of  
\$65,000,000 Pennsylvania Railroad 4 1/2  
percent mortgage bonds, to be used in  
large part for refunding an issue of  
5 1/2 percent convertibles.

The bond market was irregular on  
light and narrow dealings.  
Total sales per value aggregated  
\$4,700,000.

## LOS ANGELES STOCK EXCHANGE.

Trading Session Without Feature.  
Union Oil and Los Angeles Investment  
Weekend.

Yesterday's session on the Stock  
Exchange was without special inter-  
est. Union Oil opened weaker at  
\$8.75, sold down to \$8.00 at the end  
of the morning call and recovered  
slightly in the afternoon, when sales  
were recorded at \$8.50. Los Angeles  
Investment was down again, the few  
small lots changing hands at 48 and  
49. There were scattering trades in  
Union Oil Consolidated Mines and  
Maricopa Northern.

## COMMERCIAL.

With the fresh fruit season on hand,  
there is considerable instability in  
dried fruits. Prunes have taken a  
decided slump, selling from 14 to 1 cent  
lower on account of the stock still in  
hands of California brokers and job-  
bers. The largest obtainable size is  
down to 12 1/2, while the smallest fruit  
is now holding at 8 1/2. Apples on the  
other hand are fractionally higher.

They were the lowest of all dried  
fruits through the season because of  
the heavy stock, but the demand has  
been strengthening and low prices  
caused heavier sales than originally  
expected, so that several quotations are  
moving up, while on most other  
fruits the kind of stock, the  
feeling is weak.

The market on sausage is down 1  
cent a pound on all fresh varieties al-  
though the strictly pork sausage, Bacon  
and other quotations have remained  
about the same. The market is  
without change in the past few days.  
Butter and eggs and cheese are all  
as stationary as though nailed down  
or anchored in concrete. Advance in  
eggs is not felt, and vegetable prices  
are brought here in the past week.  
Receipts were 725 cases. Butter  
was 1745 sacks. Onions, beans  
and sweet potatoes were steady.

No change in spuds was reported al-  
though there is a heavy stock of  
northern Burbanks to be figured on.  
Up to this time the market has been  
quiet, but there is a light for several  
days on account of weather conditions  
which have delayed the market.  
Receipts were 1745 sacks. Onions, beans  
and sweet potatoes were steady.

## STRIKE WATER.

THEN ORE BODY.

OPERATORS DRIVEN FROM MINE

AT OATMAN, KENTUCKY.

FIND GOLD.

(SPECIAL CORRESPONDENCE.)

OATMAN (Ariz.) May 3.—Among

the developments in the mines of

the Tom Reed-Gold Road district during

the last week were the widening of

the ore body on the 1075-foot level

in the Tom Reed mine, and the discovery

of ore on the 900-foot level in the

Pittsburgh mine. There was the usual

weekly output of \$40,000 worth of bullion.

A heavy flow of water drove the

miners out of the 1075-foot level of the

Pittsburgh mine, and it required considerable

pumping to clean out the workings. When the

miners went back to the cross-cut from the

cross-cut from the 1075-foot level, they found

the face of the cut filled with ore similar

to that showing in the Tom Reed mine.

Where opened on the 100-foot level in the

Pittsburgh mine, the ore body is

not to disarray any of his wife's toilet

articles, he placed the ugly automatic

among the delicate pieces there, then

rummaged a piece of paper from the

drawer and began his note of explanation.

"Dearest Flo, good-by. There was no

other way to—"

He halted. How silly and immature

that sounded! He collected his

brains for the proper words to convey

the real meaning of such a parting.

It did not occur to him that his cool-

ness was that of a corpse. He scratched

the pen through his hair—an old

habit—as though the action would in-

duce thoughts. The tinkle of the

phone in the living-room brought a

sharp exclamation of impatience from

him as he hastily obeyed upon the

mental effort. Reluctantly he

picked it up, his voice cool and col-

lected. A slight smile parted his lips

as he said: "Hello, Flo." "Yes, I know,"

"I have just closed your C. D. &amp; M.

with \$100,000 profit, Mr. Drum. It's

the correct."

"Quite correct," the taller quietly

answered, then: "Just send it to my

apartment by messenger—immedi-

ately. One hundred and seventy-five

thousand dollars, I believe."

Coolly he replaced the receiver on

## Public Service: City Hall, Courts.

UTILITY SUITS  
TO BE DROPPED.BOARD PROPOSES TO URGH  
CITY'S WITHDRAWAL.

First Written Protest Against New Telephone Rates are Filed with City Clerk, Indicating Dissatisfaction with Metered Service Charges. Other Items of Public Interest.

First steps towards getting rid of the city's two legal white elephants—the gas and telephone injunction suits—will likely be taken by the Board of Public Utilities today. This move will come in the form of resolutions to be transmitted to the City Council, suggesting that the Council direct the City Attorney to "relinquish" from the cases now before the Federal Court.

Reasons for this action already considered informally by the Utilities Board are that the Mulholland appraisal has knocked all of the legal props from under the city's defense in the rate case and that the city never had a real case in the telephone fight.

In the gas case, the Utilities Board fixed the rate at 55 cents for natural gas and the Council made the price at 45 cents. Then came the injunction proceedings brought by the gas company and the suit which has been productive of expense and annoyance and no satisfaction for the people.

In the telephone suit, the Utilities Board failed to agree and the telephone companies advanced rates from \$1.75 to \$4.75 for business telephones and added 25 cents to the residence rates after the board had compromised on a basis of the 1912 rates. The report of the Utilities Board on the gas case, which favored an increase in rates, was finally read into the record of the Council and during the course of the telephone rate litigation no one has been confident that the city had much chance for winning.

The first two written protests against the metered service telephone rates, addressed to the Council, were received by City Clerk William yesterday. The National Engraving Company challenges the statement of President Lane that anyone will get a lower rate, adding that "any concern that does not make more than three telephone calls daily must be only three times ahead of the Sheriff." Dr. E. H. Garrett, the other protestant, tells the Council that he believes the new rates will add about 15 per cent to the bills of the business men.

**LIBERTY BELL MAY COME.**  
**SOUTHLAND REQUEST NOTED.**  
Harry C. Ransler, president of the Select Council of Philadelphia, has written City Clerk William yesterday the receipt of the formal and official invitation of the city of Los Angeles that the Liberty Bell include this city on its itinerary.

Places for about seventy-five clerks and appraisers were created yesterday by the City Council through the passage of an ordinance which places this work under the City Assessor. A superintendent of appraisals will direct the clerks of the work and civil service examinations will be held for filling the clerical positions in a few days. Salaries will range from \$75 to \$100 a month and the positions will be temporary; some of them being good for ten months.

**Municipal Pickings.**  
The Finance Committee of the Council will consider an appropriation at its next meeting for the enlargement and remodeling of the Receiving Hospital.

**Protest on the part of the Pacific Electric Railway Company** against changing the entire cost of a monolithic concrete culvert in Chelms street was referred back to the Council yesterday.

**The report of the Engineer on the improvement of Dayton avenue from Pasadena avenue to Avenue Twenty** was referred to the Public Works Committee.

**At the Courthouse.**

**BEAMS WITH JOY  
AT VINDICATION.**

**WIFE SUCCESSFULLY BATTLES  
FOR HER GOOD NAME.**

Charged by husband with compromising himself with brother-in-law, she receives ovation from friends when court finds evidence unbelievable.

Mrs. Pearl Clarke, the slender young woman who braved the notoriety of a divorce court to defend her good name against the unusual charge that she had compromised herself with her husband's brother, beamed happily yesterday when Judge Monroe denied Alexander H. Clarke a decree. He said the story told by Mr. Clarke and the detectives was incredible.

The court referred to one part of the evidence and stated it was "one thing that makes it look as if the whole thing was a trap" to compromise the young wife. He stated, however, that he was not going to find "anything of that sort." It was "one of the circumstances that convince me the thing was impossible."

The evidence showed that Philip Clarke, the brother, was a welcome guest at the Clarke home; that if he was in love with his pretty sister-in-law he had ample opportunity when the husband was at his office; but the alleged events which brought about the divorce were said to have occurred at night, while Mr. Clarke was in his own room, with the sliding doors connecting it with his wife's open.

This was the incredible thing the court referred to, emphasized by the husband's statement that he was paralyzed by his wife's misconduct that he could do nothing for several hours. The court did not hold Mrs.

Clarke entirely blameless. He thought it was probably true she was too fond of Philip, "but I don't believe a thing of that sort occurred on those two nights," as recorded in the testimony. The court found that after these alleged occurrences, which Mrs. Clarke denied most emphatically, Mr. Clarke dined and drank with another woman. A week later the court found he was with a woman with whom he had a very slight acquaintance and drank champagne with her. He was with a woman on a third occasion.

"I can hardly believe the acquaintance was as slight as he said it was when he was entrusted with a lock of hair by one woman," the court declared. He further held that the violence alleged by Mrs. Clarke in her cross-complaint had no corroboration.

Mrs. Clarke was surrounded by her friends as she left the courtroom, beaming from her vindication. They cheered and cheered her and led her in triumph to the elevator.

**SHE TAKES HIS DARE.**  
**HE SEEKS A DIVORCE.**

Mrs. Elizabeth Duncan took her husband, Hamilton B. Duncan, an attorney, at his word. After a quarrel over a business matter, he told her to send his clothes to his office. She did and yesterday Mr. Duncan was in the divorce court ready to take his dare. Mr. Duncan said they were living at Venice. Because of relatives, he was not comfortable. He was on his way to his office one morning and they quarreled.

"If you have no better consideration for me than that," he testified, "I am going to do it, but she did." Mr. Duncan received word that his wife would not see him if he went to her mother's home, where she was staying. He wrote her and she told him to come back. He did and she told him to come back. He did and she told him to come back.

**WINS HER DIVORCE.**  
**BECAUSE OF A PICTURE.**

The photograph of a pretty nurse, found in the trunk of Henry Shaul by his wife, proved his undoing yesterday. He was questioned closely about it by Judge Wood, who tried Mrs. Shaul's divorce suit, and the court intimated strongly that he did not believe it was merely a perfume bottle gift of a young and pretty woman to a middle-aged, married man, but that there was a tender attachment between them.

Mr. Shaul did not intend to oppose his wife's suit, but the court ordered him to produce the picture. He did and the court found in favor of Mrs. Shaul.

**MONEY BACK.**  
**LOST IT BUYING AGENCY.**

The Home Specialty Company obtained judgment for \$24,000 against the Domestic Utilities Company by default in Judge Wood's court yesterday. The Home Company is alleged to have bought the right to sell washing machines handled by the Domestic Utilities Company, paying \$10,000, and to appoint agents and discovered, it is asserted, that the agency rights had been disposed of to another concern.

The Domestic Utilities Company hitherto had been successful, except in one other case, in defending suits brought by men and women who alleged they had been stung in buying agency rights. The concern had offices on South Broadway and did a land office business. In many cases patrons said they had mortgaged their homes in order to secure the money to buy agencies. On paper it looked like a first-class investment, in practice the only way to break even.

**STORM PICTURES.**  
**TO FIGHT MONEY CLAIM.**

Photographs of damage wrought by the recent storm were filed yesterday by Attorney Genser Williams, representing the Redondo Racing Coaster Company, defendant in the action brought by the Ingersoll Engineering and Consulting Company to recover \$100,000, the value of bonds given for constructing the coaster at the beach city. These photos were made to show the effect of the storm on the coaster in substantiation of the allegation of the defendant that the work was badly done. It is contended that if the coaster had been properly built the storm would not have damaged it.

The Construction Company was given the bonds under the agreement, it alleged, that they were to be taken for eight years. In a cross-complaint the Coaster Company asks \$100,000 damages as an offset. Judge Hewitt will try the case August 5.

**CITY ATTACKS SUIT  
FOR STORM WATER DAMAGE.**

The attack of the city of Los Angeles on the complaint of the San Gabriel Valley Country Club, which asks \$12,000 for damage to ten acres of the club grounds by flood waters diverted from their natural channel by storm drains, carried with it the question whether suit could be maintained against a corporation. The club contended that an action would lie and decisions were quoted to that effect.

The suit is before Judge Worke for trial, and yesterday he granted the club leave to amend the complaint. The allegation is that the system constructed by the city and the city of Pasadena diverted the flood waters from the Sierra Madre Mountains into the San Gabriel River, across the club grounds, and caused the damage asked.

**BOY'S GEMS FADE  
AS THEY FACE NEW JUDGE.**

When five youths were summoned to the juvenile court yesterday, they entered the courtroom grinning. When Judge Reese, the new umpire, finished the grins had faded, and one boy was in tears. Four of the five will not return to the parental roof for some time; one was sent back to tell the "gang" what will happen to them if they do not brace up.

The "gang" was Lake Lutz, 12 years old. He was not swayed by his mission when he left the courtroom yesterday. He will feel the importance of his position when he assembles the "gang" and starts down Judge Reese's stairs.

Serrano was taking flowers and blossoms to the railroad station for shipment to Los Angeles. Yesterday Judge Shum, who tried the case, gave Serrano judgment for \$1000.

**SAN GABRIEL FIGHT.**  
**BOY-FIGHTS TO REBUILD VISIONS OF THE EARLY DAYS WILL MARK COMPLETION OF LIGHTING SYSTEM.**

[LOCAL CORRESPONDENCE]  
SAN GABRIEL, May 4.—The residents are taking a lively interest in the festa to be held here the last of the month to mark the completion of the first lighting system the city has known.

Mission drive, which is already spoken of as "the lighted way," will be the scene of the festivities, and the population, headed by Mayor Daken, will assume Spanish costumes and temperance while the festivities are in progress. The old plaza will be the center of attraction. It is promised that there will be bull-fights, reminding one of the sports of the early days, and gaily caparisoned matadors and toreros will lead the way to the hearts of the spectators by their thrilling and spectacular performances in the arena.

A huge dancing pavilion is to be erected and the picturesque dances of the early days will be given. The musicians and dancers of the "Mission Play" have promised to give the services to the celebration, which will be the most elaborate given in the history of the city, and will last for several days.

**CHAMBER SCARE FISH.**  
**[New York Times:]** A strange thing has been noticed in all the waters of Zealand. Great shoals of fish have come swimming swiftly up the streams, leaping out of the water as they sometimes do on the summer days, says The Hague correspondent of the Sun. In places where they never were noticed before there are now swarms of fish.

It is thought that the vibration of the sea bottom caused by the tremendous commotion of last week's disturbances of the fish and sent them into Holland's waters to seek safety.

**PROCEEDINGS IN BRIEF.**  
**QUER DISCOVERY.**

The State filed suit yesterday after discovering its own property had been sold for taxes. The action handled by former Judge Robert M. Clarke, Attorney-General, was filed against Samuel H. Serrano to quiet title to two lots in the Boulevard tract. Years ago the lots were deeded to the Sonoma State through an error of the assessor's office. Apparently, the lots were sold for non-payment of taxes and assessments. Mr. Serrano finally obtained a tax title.

**ONE-TENTH DAMAGES.** December 1, 1912, Serrano Vreake, a nurseryman employed by Henry Turner at Newmark, went on a wild automobile ride, or so it appeared, when the auto smashed into a tree and came off against a telephone pole, with resultant injuries to Serrano. He sued Mr. Turner for \$10,000 damages, alleging Mr. Turner drove the machine in a reckless manner. At the time

"Murder will Out."  
ARRESTS TODAY  
FOR SHOOTING.

SO DETECTIVES DECLARE IN SEBASTIAN CASE.

Finger Prints are Found on the Window Through Which Shots Were Fired and These Lead to Trail of Two Men Who are Suspected.

Up to a late hour last night Detectives King and Oake, who are investigating the attempt made late Monday night to assassinate Charles E. Sebastian, candidate for Mayor, as he sat at his table in the den of his home at No. 2123 Cambridge street, reported they are on the trail of two men and will arrest them today. They refused to give out any names, saying "wait until tomorrow."

According to police detectives the two men were seen by neighbors hanging about the house for several hours before the shots were fired. The men, the neighbors say, were lurking in the rear of Mr. Sebastian's home and were also seen in the yards of the two next-door neighbors.

Inspector Home after a personal investigation, said he is sure the attempt on Mr. Sebastian's life came

LANDMARKS SOLD  
TO BUSINESS MEN.

LONG BEACH CORNERS TO BECOME SUBSTANTIAL BUILDING SITES.

[LOCAL CORRESPONDENCE]  
LONG BEACH, May 4.—Demolition of old landmarks and the erection of business buildings on two prominent corners of the business section will follow the purchase of \$70,000 worth of local property today by wealthy residents. A lot of \$10,000 on two Ocean-avenue lots for the purpose of building was also secured today.

William Baldwin Stewart of Wisconsin, who purchased the southeast corner of Fourth street and Pine avenue of the Deets estate for \$14,500. This lot is 15 by 150 feet in size, and is occupied by the old Baptist Church building, the congregation having long ago moved into more commodious quarters, real estate men and second-hand goods dealers being tenants now.

John E. Bartle, Monrovia banker, bought for \$25,000 cash the southeast corner of Third street and American avenue, a lot 50 by 150 feet. The property, on which is an ancient two-story house, was owned by Dr. Joseph Schoppe, now in Germany, who purchased it less than twenty years ago for \$100. Many cablegrams were exchanged before the deal was consummated. Both purchasers will build soon.

**CHILDREN CONFESS.**

An 11-year-old girl and two boys of 10 years of age have confessed to two clever robberies which have puzzled the police for some time. In each case Detective Winters has landed the culprits. The girl, who tearfully admitted her misdeeds, secured passkeys and ransacked rooms in the Granada Apartments, securing about \$25 worth of jewelry. The boys "lifted" five rabbits from a Pine-avenue meat market

FREE COOKING SCHOOL**

Lectures by Mrs. Edna J. Evans—expert in cookery  
and culinary arts—every afternoon 2 to 4 o'clock.  
Seats for everybody—Grocery Dept.—Fourth Floor.

—with the fast approach of summer there's new  
a-stir in summer foodstuffs and the proper, healthy  
way of preparing them. And with this new  
comes the suggestion of the modern improved method  
cookery and culinary arts.

Mrs. Evans is an expert in the art of bread and cake  
and in practical cooking. She will conduct cooking classes  
afternoon—each day a different lesson—one, day on  
another on meats, on fish or entrees, etc. It's a course in  
that we have arranged with the idea uppermost of practical  
fulness to our customers. We shall be gratified, indeed, if  
you profit by them. Come every day if you can.
